

Dear Valued Vendor,

To achieve compliance with the U.S. Food and Drug Administration (FDA) *Hazard Analysis and Risk-Based Preventive Controls for Human Food* regulation, which is referred to as the *Preventive Controls for Human Food* regulation, J&J Snack Foods Corp. **requires documentation from each manufacturing location directly supplying ingredients to us.**

The requirements of this regulation are designed to promote safe food production and meet the Food Safety Modernization Act (FSMA).

If you supply any JJSF locations (see address list below) with ingredients from more than one manufacturing location, kindly upload the appropriate regulatory documentation unique to each facility supplying ingredients to J&J Snack Foods.

Thank you in advance for your cooperation and assistance.
